

NEW

## TS 98 XEA – an appealing all-rounder.

Offering a variety of installation and configuration options, the new slide rail door closer – TS 98 XEA from dormakaba – is sure to impress.

### **Closes doors virtually soundlessly**

The TS 98 XEA slide rail door closer from dormakaba has an attractive, sophisticated design and is flexible and easy to install. Just 60 millimeters in height, the closing unit is compatible with all four mounting types. Hydraulic functions and closing range EN 1–6 can be configured easily from the front. The selected closing range value can be read from a visual display.

**Why everyone – from architects to users – can benefit from the TS 98 XEA:**

- Extended closing force range for door widths of up to 1400 mm
- Closes doors virtually soundlessly due to its extended closing area
- Accessibility is ensured by means of the proven EASY OPEN technology, in accordance with DIN SPEC 1104 and DIN 18040.
- reduced complexity and variance
- Backcheck function and delayed closing action in all 4 mounting types
- 1 door closer for 4 types of installation
- XEA design

**01**  
**TS 98 XEA GSR**  
 for double doors with  
 closing sequence control

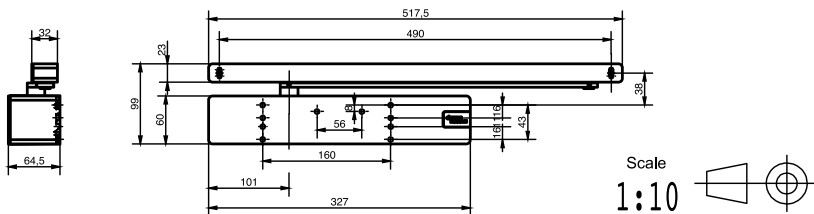

**02**  
**TS 98 XEA**  
 1 door closer for all  
 4 mounting types

**03**  
**TS 98 XEA Ubivis**  
 with battery-operated  
 locking system for single  
 doors

**The best features – combined.**  
**The TS 98 XEA – for almost all project requirements.**  
 The TS 98 XEA slide rail door closer offers a high-quality architectural solution for all project requirements and, due to its heart-shaped cam disc, is particularly easy to open.
